System Requirements

To perform the exercises on your private computer you need

- either Node.js (18.x, 16.x or 14.x)
- or Docker
- On the university computers Node.js should already be available. You can verify this by running node v on the command line. It should display a 14.x (or higher) version.
- Nou can always fall back to your personal laptop for the exercises as it should be free from virtualization, proxying or installation hurdles!
